ABOUT ME

About myself, I can say that I am a positive person, with the desire to constantly evolve. On the one hand, I am characterized by attention to details, the desire to learn new things through work and exercise, and on the other hand, I am an organized person, I like to work in a team due to the acquired communication and collaboration skills.

For some time, I have been attracted to the IT field, so I took an accredited Java programming course and I can't wait to find my place in a company where I can deepen the knowledge I have acquired and obtain new ones, to gain hands-on experience.

RECOMMENDATIONS

Teacher

Name: Edina Moldvai

Teodora was one of my student at ITFactory where I was teaching Introduction to Java. She was one of my brightest students. She managed to learn fairly easily the main concepts of OOP and to apply them in a short amount of time. Homework was another fun thing for her, as she was delivering her homework on a regular basis and I was glad to provide her with feedback, as a tool for continuous learning. I think she would be a good fit in any team as a junior developer or an intern as she has all these qualities that I consider necessary for being part of a successful team: she is a kind and enthusiastic person, she learns fast and from what I can tell she also loves to learn and conquer new challenges.
